**RESOLVED:**

- *B&NES Council should ensure that none of the original conditions are lost, especially those in respect of the agreed CIL funding that will come from the development.*
- *Keynsham Town Council reiterates the B&NES Council Arboriculture Team's comments that there is a scope for revision and that points need to be clarified in respect of the tree planting plans and green corridors.*
  - *It is unclear how many trees would be removed to enable aspects of the development.*
  - *The width of the northern tree belt is inadequate to accommodate sufficient trees and continual canopy cover. The proposal does not demonstrate that this is protected or enhanced.*
  - *The width of the green corridor beside the PROW is questioned and tree pit design for hard surfaced areas and tree planting choices are not bold enough, and are likely to be the subject of further comment from the Landscape consultee.*
  - *Condition 21 of 21/05471/OUT remains undischarged.*
  - *Keynsham Town Council would also add that existing trees that are to remain on the site should have their roots protected during construction of the dwellings and that the number of trees removed are limited to*

*ensure that the water table is not affected.*

- *Keynsham Town Council reiterates the B&NES Council Drainage and Flooding Team's comments that there is a scope for revision and that the applicant should address the requests for further information. Local knowledge in respect of surface water and drainage issues in this location and on neighbouring new developments need to be looked at seriously and solutions that will work incorporated into the final plans.*
- *Keynsham Town Council reiterates that conditions relating to affordable housing be addressed including the provision of an Affordable Housing Statement and clarification in respect of social rent provision.*
- *Keynsham Town Council would ask that the Developer ensures that the estate roads can accommodate the movements of a small bus should a service be provided for the development in the future.*
